

## STANDARD VEHICLE POWER PEDESTAL

### EPT-NW

The EPT standard series vehicle power pedestal is a 29 1/2"H power point mainly used for parking lot applications. The sturdy baseplate enables the pedestal to be securely fastened to a concrete base. Standard PC101 Grey powder coat finish provides a durable finish. The hinged top head provides easy installation and the Type 3R weatherproof design can be used in both indoor and outdoor applications.
