PARKING LOT UNIT SUB CONTROLLER WITH TRANSFORMER, ENERSAVE LOGIC, MAIN CONTACTORS & DUAL DISTRIBUTION PANELS

VPC-DF

The VPC-DF Unit Sub Parking Lot Controller uses the Enersave logic to control multiple set points for parking lot applications. The weather proof design is ideal for outdoor use. Standard PC101 grey powder coat paint provides a durable finish. The integrated transformer enables smaller cable sizes to be used for long cable runs. This free standing controller allows energy saving with 50/50 load sharing.

Features/Specifications

- Steel construction
- CSA Type 3R rated
- Pad lockable handle
- Enersave Temperature Controller with:
 - Up to (4) set points customer programmable temperature set points (recommended -5°C, -10°C, -15°C, -20°C)
 - Programmable number of set points
 - Duration of cycle
 - Supervisory Enable Signal
- Easy field configuration via jumper settings
- 50/50 load share
- Integral power transformer
- HOA switch to bypass logic
- Temperature sensing cable with weather proof cover
- 2 main contactors & 2 circuit breaker panels
- Pad mount design
- PC101 Grey powder coat finish

Optional Items

- Single phase secondary (120/240V)
- Higher amperage ratings
- Various voltage ratings
- Time of day clock
- Aluminum or stainless steel construction
- CSA type 1, 4 or 4X rated
- Remote sensing thermostat
- Custom powder coat colours
